

GVTEC is a new merger of two established forces in the stainless steel industry, namely Grotto and Velo. With a staff that has over 1000 years of cumulative experience, GVTEC delivers high quality stainless steel storage and processing tanks to various industries.

This year, GVTEC got one of the largest contracts in the history of the SA stainless steel tank industry from Botha Wine Cellar in the Breede river area of Worcester. The project, which was designed by Christie van Zyl and his team from Windmeul Projects in Worcester, consists of:

- 14 x 40,000/40,000 litres combo tanks
- 18 x 52,000/52,000 litres combo tanks
- 18 x 80,000 litres single compartment tanks and
- 14 x 104,000 litres single compartment tanks.

The contract value of this project is more than R17 million and includes the delivery and installation of the tanks, which have to be finished by October 2015.

Christie van Zyl from Windmeul Projects, Gerrit van Zyl, general manager of Botha Cellar, Chris Wium and Klasie Sieberhagen from GVTEC and Stiaan du Toit from Windmeul Projects.

In honour of this great milestone, GVTEC would like to thank the board of directors and the management of Botha Cellar for the belief and trust in the company. GVTEC will ensure that high quality standards are maintained through manufacturing, delivery and installation of the tanks.

## PROMOTIONAL PACKAGING

TIN-PAC is one of the leading manufacturers of promotional packaging in South Africa. Founded in 2012, it is a Pty (Ltd) company, with black female majority ownership, BBBEE status: Level Three (3) contributor. TIN-PAC brings a diverse component into the marketing of products by keeping the product safe, protected and providing a means to display and communicate the properties of the product to customers.

A range of tin ware offers clients functional, visually appealing, durable and inexpensive options for promotions of limited edition products. The design of the tin ware is innovative in terms of shape, printing and design, with specifics relating to the clients' needs.

### Products and services offered by TIN-PAC include:

- Embossing and debossing
- Various varnish options, including gloss and matt
- Hinge and slip lid options
- Technical and logistical expertise
- Stock box range
- Add-pack option whereby product is packed into tin, then final product is packed into carton and shipped to various distribution centres. This eliminates cost associated with handling and contract packers.

The promotional tin ware has more packaging benefits, including

longevity which supports the brand rather than replaces it, high quality eye-catching finishes, better functionality and secondary uses at home for storage of numerous household items. It is also the prime communication vehicle to customers at point of sale and plays an important role as a collector's item.

The tin range is diverse and includes rectangular, square, round and oval tins which are available in a various dimensions that are in line with products for all kinds of clients.
